

People's Emergency Briefing

Community Screening

Join us for a screening of the People's Emergency Briefing - a clear and an informative documentary bringing together nine leading UK scientists and experts with the latest evidence and why it matters for things like extreme weather, food security, health and cost of living.

The film is based on the National Emergency Briefing given in Westminster last year, hosted by Chris Packham with appearances by Deborah Meaden, Jennifer Saunders and a range of voices from across the UK.

After the film there will be a discussion about what it means for our community and what we can do locally.
